Re: Letter in Support of Canfor Pulp Limited Partnership's Pulp and Paper Green Transformation Program

To Whom It May Concern,

On November 30, 2009 a delegation was made to Prince George City Council from Canfor Pulp Limited Partnership (CPLP) on the Pulp and Paper Green Transformation Program. The presentation on the Pulp and Paper Green Transformation Program was well received, and Council was largely impressed by the efforts CPLP is making towards reducing their emissions and increasing their green energy production. CPLP has a large presence in the community and Council was also impressed with the plans CPLP has in place to improve the well being of our community as a whole.

Improving Prince George's air quality and encouraging environmental stewardship are priorities for the residents and political leadership of Prince George. Mayor and Council, with support from our constituents, have been making policy changes to reduce the level of CO<sub>2</sub> emissions in our local environment and encouraging senior levels of government to take a more aggressive approach to lowering greenhouse gas emissions. The projected results of CPLP's Pulp and Paper Green Transformation Program align with the goals of the City of Prince George and we sincerely hope their environmental improvements go ahead as planned.

Through this letter, Prince George City Council is voicing its appreciation and support for the CPLP's Pulp and Paper Transformation Program.

Sincerely,

CITY OF PRINCE GEORGE

Dan Rogers  
Mayor
