Dear Ms. Waddell :

The Regional District of Fraser-Fort George is pleased to support the Northwood Pulpmill Green Transformation and the PGI Mills Green Transformation projects.

The projects will have a significant and positive impact on the Prince George air shed. The investment that Canfor Pulp Limited Partnership is making to reduce emissions and increase green energy production shows how committed CPLP is to environmental stewardship. These two projects will not only bring environmental benefits, but the region will also benefit through the added employment and economic boom these projects will generate.

The Regional District of Fraser-Fort George is pleased to be added to the growing list of organizations that are eager to see these two projects approved and implemented. We are excited to see the commitment of Canfor Pulp Limited Partnership and we know that worthwhile projects like the Northwood Pulpmill Green Transformation and the PGI Mills Green Transformation projects will go a long way in improving the quality of life for residents in our region.

Sincerely,

Art Kaehn  
Chair
